Summary

Hello there! My name is syadam radyan anwar, and I'm a student majoring in Computer Science. I'm passionate about exploring the world of technology and discovering new ways to use it to make people's lives better.

I'm currently pursuing my double degree at university of Indonesia and Asia e university, where I'm learning all about Computer Science and Technology. I'm fascinated by the ways in which technology can be used to solve complex problems and make a positive impact on society. My coursework has given me a solid foundation in Java, OOP, Android Development, SQL, DevOps and I'm excited to continue exploring this field as I move forward in my studies.

Outside of my academic pursuits, I'm also very active in Android Developer Community as Content Creator. I believe that it's important to give back to the community and make a positive impact on the world around us. Whether I'm volunteering at Android Developer Community, pursuing my hobbies, or spending time with family and friends, I always try to approach life with a positive attitude and a willingness to learn.

On this page, you'll find more information about me, my interests, and my work. Please feel free to Email me, and don't hesitate to reach out if you have any questions or just want to say hello. Thanks for stopping by!
